

Seal the top of the package together with the patient's information label and any relevant notices.

Notices may include:

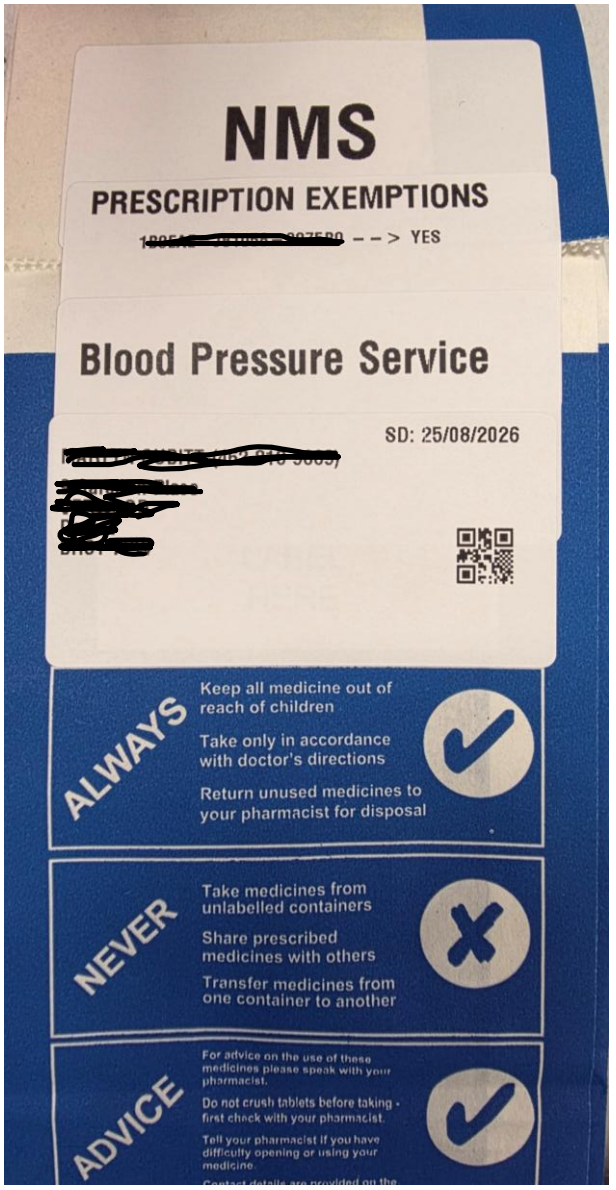

Prescription exemptions

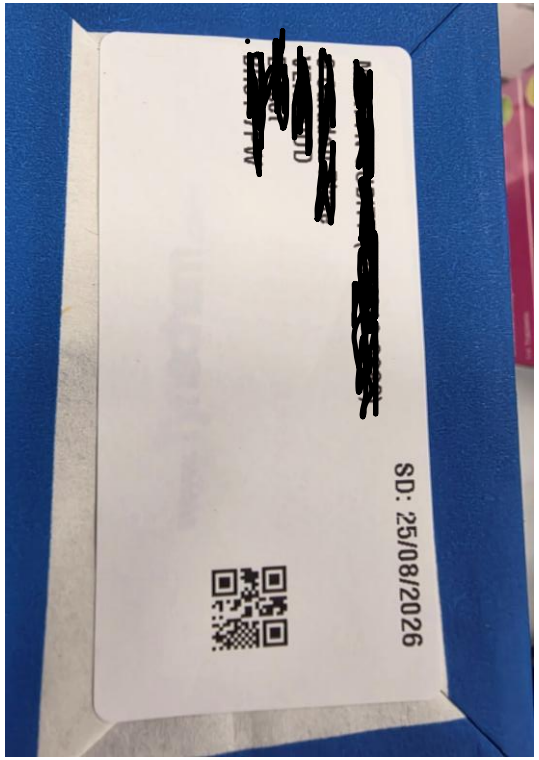

Blood Pressure Service

Refrigerated items

Owing items, etc.

This ensures that both the patient and counter staff notice all key details.

Counter Collection	Med point package	Delivery package
Attach the patient's details at the bottom.	Place the Med Point QR code at the corner of the triangle.(Do not place it in the center of the bottom section).	Attach both the delivery QR code and the patient's details at the bottom.(Avoid placing two QR codes together at the bottom).

If one of the following label is printed out:

Print rx

Print script

Reprint

Print DT (Dispensing token with the medication list)

Please follow the following guide:

1. Get to the patient's page by opening a new tab
2. Scroll down to All Prescriptions
3. Click "View" to the latest Prescription
4. Print/Reprint DT
5. Cut off the lefthand side and put it into the confidential bin
6. Put the righthand side inside the bag
